MetFX | March 2022

What is MetFX?

Take your first steps into the **MetFX World**.

What is **MetFX**? That's simple.

MetFX = **Metaverse** + **Function** [f(x)]

The **metaverse** is **real estate**, **sports events**, **virtual shopping**, or just **a day at the park**.

The **input (x)** is the **player** and the **function** is **entertainment** for each guest of the **MetFX World**.

Whatever you want to make it, **MetFX** is sure to be **exciting**, **fresh**, and **fun**.

Enter the Metaverse

Front and center on the platform is the **MetFX World**, a Metaverse where players can **buy real estate, lease theatres**, and ultimately **play games**.

The **MetFX World** will be accessible at launch, with an **NFT-themed city** players can explore. And as the World expands, **billboards, stadiums, and racetracks** will be added, keeping the experience fresh for all visitors and residents.

All land sales will be denominated in **MetFX coins**.

Metaverse | Real Estate

It's no secret that the **real estate** in the Metaverse is **heating up**. Crypto enthusiasts have shown a **growing demand** for **Metaverse plots**, and MetFX seeks to meet this demand through MetFX World's own **real estate market**.

Players can **buy land**, then **develop** it by building their own **screening rooms** and even **theatres**! Once these are up and running, players are free to **open them** to the public, **lease them** out privately, or **sell them** to the highest bidder in the **Marketplace**.

Metaverse | Sports

What would entertainment be without **sports**? MetFX will feature **stadiums** and **fields** where players can watch **horse racing**, **soccer**, **tennis**, and other sports events right in the metaverse.

Players can enter the stadium and watch **5-minute matches** of their favorite sports. Between matches they can **see bets others are making** and even **place their own**. All winnings are paid out at the end of the match, and they can do it again for the next one.

Metaverse | Sky City

Limitless Freedom, Limitless Possibilities! Live in one of our **Sky Cities**! You can live in a futuristic city that's no longer restricted by **gravity**!

Fly in and out on your terms, take a **flying car**, **fly a plane**, or **even a dragon**. Explore your possibilities, and even **fly yourself**!

Cinemovies Big Screen | Private Rooms

Watch Movies on the **Big Screen** from the comfort of your home! Have private screenings with your **close friends** and **family**, or **host a big event!**

It's your place, design it how you want, **custom furniture, fixtures, designs**. Too busy to enjoy it? Lease it out, or open it as a business and earn residual income!

Marketplace

Everyone wants to look their best when they go out. In the **MetFX Marketplace**, **users** and **creators** come together to breath life into the **MetFX World**.

Users can choose from exclusive **MetFX NFTs**, or buy NFTs and in-game assets from their **favorite artists**.

From **Avatars** to **Automobiles** there are plenty of accessories to collect. And a flat **12%** fee on every sale is **reinvested** into developing new content for the users.

Marketplace | Avatars

A key draw of the Metaverse is the ability for users to **choose a look** that they feel best represents themselves.

MetFX embraces this philosophy through its **Avatars** — **NFTs** purchased through MetFX and its partners which correspond to a **3D character** in the Metaverse.

Because these are distributed as NFTs, each Avatar is **guaranteed to be unique**.

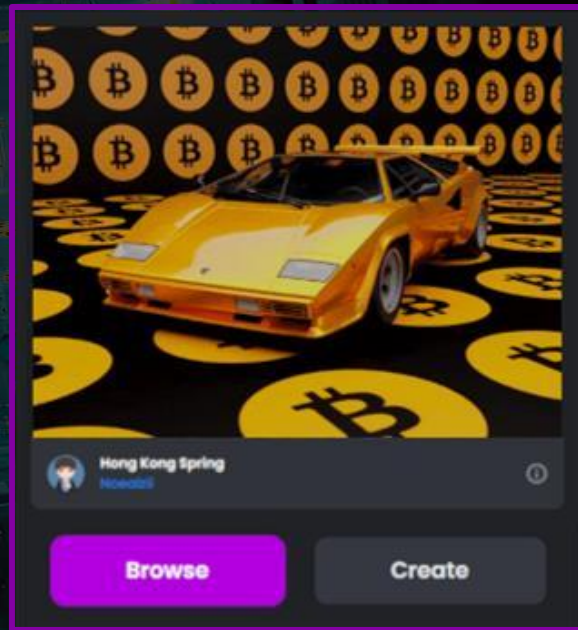

Marketplace | Automobiles

A night on the town is more than looking nice — how you get there matters! That's why users can pick out an **Automobile** to arrive in style.

Much like Avatars, Automobiles are **NFTs** that correspond to a unique **3D vehicle** in the Metaverse. Users can show off when pulling up to the cinema, or let their friends pile in for a **drive-in experience**.

And through a partnership with **Betswamp**, users can **race** their Automobiles against each other using Betswamp's **P2P betting network**.

M

+

Marketplace | NFT Gallery

Finally, users can show off the assets they've collected in their **NFT Gallery**. Assets from **other platforms** can be added to the gallery as well for users to **display their full collection** of NFTs on the **ETH** blockchain. And as with all NFTs, these can be bought and sold freely between users.

Coming Soon

As MetFX continues to grow, **new features** will be added to **expand the Metaverse**. Here's a **sneak peek** of what's to come:

- ❖ **MetFX-exclusive** and **promotional** assets added to the Marketplace on a regular basis.
- ❖ An **ever-expanding library** of media to stream in the **app** and the **World**.
- ❖ **New towns and structures** in the Metaverse for players to explore.
- ❖ **Games** and **Arcades** to keep users entertained **24/7**.
